Lots of new opportunities
with Expo Displays

Quickfix Xpressions

faster, lighter, and very flexible

We are getting very positive reactions for the latest 'pop-up' variant of our new Quickfix Xpressions system. Customers are especially enthusiastic about the ease of use, the lighter weight and the many new possibilities. Unlike other systems, with the

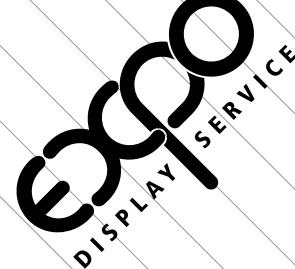

Quickfix Xpressions the printed panels and the frame together form a simple unit. You no longer need to detach the (interchangeable) panels; these are made from a modern crease resistant and washable material and remain a part of the system

even during transit. That is what we call optimal user friendliness! There are eight basic models of the Quickfix Xpressions. Visit www.expodisplayservice.com for more information.

Skyline

for permanent or portable presentations

Our new Skyline system is attracting a lot of attention ! Ideal for semi-permanent or mobile presentations, Skyline enhances your

company's image with its eye-catching contemporary look and elegant design. Skyline can be supplied with magnetic

fixing rails only - or complete with full-colour graphic panels.

Countless businesses = endless possibilities

You could be sponsoring third world children, selling pizzas or promoting medical products and services: for every business and for all applications we have

the ideal system. Systems in all possible sizes, sorts and structures, made to satisfy any budget. Make an appointment to visit our showroom or have us come to you and

advise you of the possibilities for your business and your products.

DISPLAY SERVICE

An attractive and modular stand from Expo Display Service

There are many "ordinary" stands on the market - but very few that are reusable, easy and quick to build, and where the emphasis is on the message - not the medium.

Expofix Prestige is positively the exception. This modular system is simple to expand or contract and has countless possibilities for building and extending. The high quality

and flexibility of the system means that you save time and money while ensuring maximum exposure.

Premiere! integrated multi-media screens

From out of the many discussions with our customers, there seems to be a need for a presentation system with integrated multimedia screens. This system should also be easy to construct and transport. In cooperation with specialists, Expo Display

Services have developed the perfect solution. The durable and simple support bracket (developed specially for our Expofix system) is supplied complete with a high quality 17 inch screen. The monitor is driven by a so-called compact flash card which

removing the need for a computer. Needless to say we would gladly give a demonstration and give you all the ins and outs of this modern method of mobile presentation.
