

**The SEAL 40 Manual is a cold manual laminator suitable for basic laminating operations. This table top unit is capable of handling material to a maximum width of 1100 mm and is ideal for the inexperienced, low volume user who requires an easy to use, cost-effective laminator.**

Being simple to use but delivering effective reliable performance, the SEAL 40 Manual is an ideal machine for small to medium-sized businesses, looking to add value to the service they provide and which are producing limited applications on small format devices.

Capable of mounting and laminating prints up to 1040 mm, the machine can be used with the extensive range of pressure sensitive SEAL laminating films and adhesives available up to the standard width of 1040 mm. With a 12 mm maximum nip opening, the 40 Manual can handle a wide range of substrates.

**The SEAL 40 Manual provides the following features**

**Optimum performance**

- Supply station on top of machine for continuous operation
- 1040 mm maximum process width requires no need for special material sizes
- 12 mm maximum nip opening for handling a wide range of substrates
- Coated rollers for better quality results conforming to small irregularities in the substrate

**Ease of use**

- Manual machine with simple settings for basic lamination operations
- In and out feed tables integrated in machine for easy operation
- Single point nip adjustment for even nip opening (no need to adjust each side)
- Small footprint is easy to site

The SEAL 40 Manual is capable of producing the following applications (Pressure Sensitive films only):

Rigid Indoor Displays

Floor Graphics

Roll-up Displays

Backlit Displays

Pop-Up Displays

Rigid Outdoor Displays

# SEAL 40 Manual

## Technical Specifications
